Topic: Inequalities

1. Inequality An inequence equal.	10	
equal.	ality says that two values are not	7 ≠ 3
i -		
		$x \neq 0$
	eans that a is not equal to b.	Controller interese of the controller
	eans x is greater than 2 eans x is less than 3	State the integers that satisfy $-2 < x \le 4$.
1 -	eans x is greater than or equal to	$-2 < x \le 4$.
	cans A is greater than or equal to	-1, 0, 1, 2, 3, 4
$x \le 6 \text{ me}$	eans x is less than or equal to 6	, , , , ,
3. Inequalities Inequaliti	es can be shown on a number line.	
on a Number		-2 -1 0 1 2 3 x≥0
-	cles are used for numbers that are	← ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~
less than	or greater than $(< or >)$	
Closed ci	ircles are used for numbers that	-5 -4 -3 -2 -1 0 1 2 3 4 5 x < 2
	han or equal or greater than or	
equal (≤		-5 -4 -3 -2 -1 0 1 2 3 4 5 $-5 \le x < 4$
	es can be represented on a	Shade the region that satisfies:
Inequalities coordinat	e grid.	$y > 2x, x > 1 \text{ and } y \le 3$
70.1		
	quality is strict $(x > 2)$ then use a	y = 2x
dotted lin	quality is not strict $(x \le 6)$ then	4
use a soli		y = 3
350 4 5512		R
	e region which satisfies all the	2
inequaliti	es.	/ x = 1
		/ " 1
5 Overduction Chatch 41	as and dradio arough of the	Solve the inequality $x^2 - x - 12 < 0$
5. Quadratic Inequalities Sketch the inequality	ne quadratic graph of the	Solve the inequality $x^2 - x - 12 < 0$
mequantes	, •	Sketch the quadratic:
If the exp	pression is $> or \ge$ then the answer	
_	pove the x-axis.	-3\ 4
_	pression is $< or \le$ then the answer	- /
will be b o	elow the x-axis.	
Lookson	afully at the inequality symbol in	
the questi	efully at the inequality symbol in	The required region is below the re
the questi		The required region is below the x-axis, so the final answer is:
Look care	efully if the quadratic is a positive	-3 < x < 4
or negati	ve parabola.	
		If the question had been > 0 , the
		answer would have been:
	11 4 641	x < -3 or x > 4
	collection of things, usually	{3, 6, 9} is a set.
numbers,	denoted with brackets { }	

 $\{x \mid x \ge 7\}$ means 'the set of all x's, such that x is greater than or equal to 7'

The 'x' can be replaced by any letter.

Some people use ':' instead of '|'

 ${x: -2 \le x < 5}$
